**New Kitten Checklist**

The doctors and staff of Crestview Animal Hospital would like to congratulate you on the new addition to your home! The first few months are very important for your new kitten. Below is a checklist of recommendations to ensure your kitten's health and to assist you in recording your kitten's schedule of visits.

Please remember to bring this sheet with you to every visit.

Note: These are general vaccine guidelines. Our veterinarians may suggest modifications based on your kitten's individual circumstances.

**Date:** \_\_\_\_\_ **Weight:** \_\_\_\_\_ **Age:** 4 Weeks

**Recommended Services:** Physical Exam, Fecal Exam, Deworming.

**Date:** \_\_\_\_\_ **Weight:** \_\_\_\_\_ **Age:** 6-8 Weeks

**Recommended Services:** Physical Exam, Fecal Exam, Deworming, FVRCP Vaccine, Discuss Felv/FIV testing with veterinarian.

**Date:** \_\_\_\_\_ **Weight:** \_\_\_\_\_ **Age:** 9-11 Weeks

**Recommended Services:** Physical Exam, FVRCP Vaccine, Felv Vaccine, Discuss Felv/FIV testing with veterinarian if not already performed.

**Date:** \_\_\_\_\_ **Weight:** \_\_\_\_\_ **Age:** 12-14 Weeks

**Recommended Services:** Physical Exam, FVRCP Vaccine, Felv Vaccine, 1 Year Rabies Vaccine, Microchip

**Spaying or Neutering:** 6 Months Old. We recommend retesting your kitten's Felv/FIV status at this time. Your kitten can also be microchipped at this time if it has not been done already.

**Flea, Tick, and Heartworm Preventative:** Start between 9-12 weeks of age and continue monthly year round. There are many newer products which combine these preventatives into one convenient dose which is applied topically.
