New Puppy Checklist

The doctors and staff of Crestview Animal Hospital would like to congratulate you on the new addition to your home! The first few months are very important for your new puppy. Below is a checklist of recommendations to ensure your puppy's health and to assist you in recording your puppy's schedule of visits.

Please remember to bring this sheet with you to every visit.

Note: These are general vaccine guidelines. Our veterinarians may suggest modifications based on your puppy's individual circumstances.
